FOLLOWING IS THE PETITION filed with Judge Buffington and on which was granted the injunction served on T. A. Chandler, town commissioner, to stop the sale of the city parks last week. The petition was filed and the injunction granted on Friday, before the sale and the suit was begun the following Monday. Under the Cherokee statute and according to the rulings of the court, suit must be filed before an injunction can issue.

Therefore, as tax payers, property owners and citizens of the town of Downingville, in defense of the town and our rights as citizens thereof we pray that a writ do issue enjoining T. A. Chandler as town commissioner or any other person acting under or by his authority as town commissioner from surveying or platting off into lots and alleys the two lots of land known as the public parks on the plat or map of the town now in the mayor's office—or selling or offering the sale of the same. And for further reason your petitioners allege that the act of the national council authorizing the survey and sale has never been constitutionally passed by the national council, in this that there is no attestation of its having been signed by the president of the senate. A certified copy is herewith presented.

Had it been properly enacted, it is in violation of section 6, article 6, of the constitution, in this, that it proposes to sell the property of Downingville and convert it to the use of the Cherokee nation without compensation, nor does the act offer any reason for this confiscation.

The declaration in the preamble is faulty as to fact. It is not true that these parks "remain in this day unimproved and unkept;" on the contrary the records of the mayor's office will show that the parks have always been in the custody of the constable and that they have been improved to the extent of the ability of the town to improve them.

That both parks have been ploughed and one fenced preparatory to setting them in shrubbery and grass, and the misfortune of the small pox epidemic of last year only prevented the improvement of them.

The act in its provisions is class legislation and discriminates against certain persons, owners of lots in the town of Downingville, and favors other owners of lots in other towns, in this, that it provides that no person owning more than two lots in the said town of Downingville shall be allowed to buy, thus cutting off competition and endeavoring to give others an opportunity to monopolize.

For these reasons your petitioners pray that an order issue enjoining the said town commissioner or anyone in his behalf or by his authority from surveying all or any part whatever of the public parks heretofore described in the surveyed limits of the town of Downingville, Cherokee nation, or in any manner interfering with custody and ownership of said parks. Your petitioners will ever pray.

AN ELOPEMENT furnished no little surprise and gossip over on Cowlesville prairie last week. Miss Mollie Shilton, stepdaughter of John Bates, eloped with a young man by the name of Stone. The couple went to the states, were married, and returned home a few days later to receive the paternal blessings, but were disappointed, we are informed, the parents refusing to forgive. The bride is quite well to do. It is thought, as is generally the case, that the parents will yet become reconciled and all will be well with those concerned.

THE ACQUAINTANCES of Mrs. Manning will regret to read the following item from the St. Louis Republic of Jan. 20th: "Mrs. Fannie Manning, a former citizen of St. Joseph, Mo., and Vinita, I. T., and who has been in the millinery business here for some time past, has suddenly come under the delusion that she is the Messiah. She announced at the church that she was sent to give warnings to the people to repent and that she had the power to cure any who failed to obey her commands. Her education and refinement and position in society cause many expressions of sympathy over her wild and peculiar delusion. She is 49 years of age."

JUDGE SPRINGER'S court convened here on Tuesday morning with the usual corte of court officials, lawyers and litigants. The forenoon of the first day was consumed in empanelling the grand and petit juries and in instructing the former, and the afternoon in hearing motions and sitting trials, etc., and getting ready for the work of the term. The judge announced that criminal business would occupy the time of the court till Monday; the 15th instant; then the civil docket will be taken up and will occupy the attention of the court until March 22nd, after which criminal business will again be resumed. The docket is a lengthy one, and all the time the court can possibly give it will not be sufficient to dispose of all the cases pressing for trial. A large number of criminal cases are being continued.

A MEETING of the Vinita bar Tuesday night to consider some resolutions purporting to emanate from the Muskogee bar relative to asking consent to blot the northern judicial district. A number of Muskogee lawyers were present but all disclaimed any knowledge of the obnoxious resolutions, however the document was produced with the signature of Clifford L. Jackson and others attached. After a somewhat heated discussion, a resolution was adopted declaring it the policy of the local bar of this city to not endorse at this time, any measure in congress looking to a division of the northern district. It seems to be the consensus of opinion of those present that no territory legislation of any kind would be secured at this session of congress.

el does not particularly describe by metes and bounds the location, area or condition of the lots of land provided to be sold—and the town commissioner follows the same path in advertising the sale—we are constrained to believe that the mayor and sale of the public parks is intended by the advertisement of "T. A. Chandler, town commissioner" in THE INDIAN CHIEFTAIN, January 14th, 1897.

Therefore, as tax payers, property owners and citizens of the town of Downingville, in defense of the town and our rights as citizens thereof we pray that a writ do issue enjoining T. A. THE COLORED BAPTISTS of Vinita have been holding a series of revival meetings for some weeks past, and report a large number of conversions. On last Sabbath something near a score of young people were immersed in the creek above the mill near Luster Foreman's house. There was about five inches of ice on the hole which it was necessary to cut in order to reach the water. No prettier baptismal exercises were ever witnessed in this city. The officiating minister was arrayed in a baptismal robe, and assisted in the water by Ab Buffington, performed the rite as fast as the candidates could be brought forward. The exercises were interspersed with prayer and song, and responsive scripture quotations that were well rendered and impressive. At the waters edge were gathered about one hundred colored people of every age and kind, with quite a sprinkling of whites and Indians, and they sang as only that music-loving race can sing, the deep rich bass of the men mingled with the fine soprano of the women and maidens almost raised the blue dome of heaven. And the prayers were worthy of old Isaiah himself. These God colored people may be enthusiasts, and some of them may have an inordinate appetite for chicken but there are several hundred whites in this city that would do well to emulate them in religious matters at least.

A CAT FIGHT of no mean dimensions is reported from the Cow creek neighborhood that is nothing if not sensational. The correspondent says: On Sunday night about midnight I heard a sound like the rushing of a mighty wind, commingling with the noise of many waters, and the modulations of various and sundry meows of a cat at my window. Armed with an iron poker I ventured forth in search of his catship. As soon as I got in the neighborhood of where I thought I heard the noise I saw a large light brindle cat weighing about 24 pounds. How the animal got into my house is a mystery to me as all my doors were locked and my windows pinned down, but it was on the inside all the same, and when I approached an awful fight ensued—between me and the cat. I struck it over the head with the iron poker with all my strength but without effect. I then drew my 38-calibre from my hip pocket and shot the savage beast twice, thro' the back and also in the head, but apparently without effect. Up to this time I had got decidedly the worst of the fight, so I retreated, and called a neighbor, Boon Phelps, who came to my assistance with a shotgun and then we made short order of it. Strange to say, not a single shot took effect in the wall or floor of the building; all lodged in the body of the cat. It is a great puzzle to myself and all my neighbors how the animal got in the house and where he came from. This is a true tale. WM. HARRIS.

About the only solution we are able to offer to the above is that, maybe it will turn out like the celebrated "Lincoln cat fight"—just more cats. [Ed.]
